TECHNICAL SKILLS

HTML	JAVASCRIPT	NODE JS
CSS	JQUERY	MONGO DB
BOOTSTRAP	REACT	

PROJECT

E-commerce Website Clone

- Created a simple and responsive online shopping website using React.js and CSS.
- Added features like product list, shopping cart, and user login/signup.
- Connected frontend with backend APIs using Node js and Express.
- Organized code using MVC pattern for better structure.

Book Store Website

- The Book Store Website is a full-stack web application that allows users to browse, search, and purchase books online. The site features user authentication, book listings with detailed descriptions, a shopping cart, secure checkout, and admin functionality for managing inventory.
